

## ROLINE Vertical VESA adjustment plate

<b>Product No.</b>	17.03.1101
<b>Manufacturer</b>	ROLINE
<b>Manufacturer No.</b>	17.03.1101
<b>EAN (single piece)</b>	7611990148455

**Adapter for enhancing the VESA holder of your screen or TV mount. Especially recommended for a perfect height adjustment of two monitors placed beside to each other (e.g. on a monitor bridge).**

- Perfect option to add more VERTICAL adjustability (15 cm mobility to go up and down) to an existing monitor mount
  - Track-mounted monitor holder
  - perfect to e.g. adjust two different monitors to the same height on an LCD bridge
  - Easy installation on most monitor mounts with standard VESA plates (75mm x 75mm/100mm x 100mm)
  - The toothed track keeps the adjustment smooth and stable
  - Maximum load up to 8 kg
- 
- Check the mounting position of the VESA mount on your monitor. If the VESA mount of the monitor is positioned too far up or down, the product may protrude at the top or bottom.
  - Centrally positioned monitor ports could be covered by this mount. In these cases, we recommend that cabling is done before installation.
  - Recessed VESA mounts on the monitors may require longer mounting screws (not included.) Please note: Screws that are too long could damage the display!

## Technical specifications

Manufacturer	ROLINE
Product group	LCD-Monitor arms
Product type	VESA Adapters

Colour	silver
Maximum weight capacity	8 kg
Fixing	VESA 75 to VESA 100
Adjustments	Adjustable spring gauge
Number of monitors	1
