ROLINE 19 inch wall housing Basic 7 U 540x400 WxD kit black

The 19" wall-mounted enclosures in the ROLINE Basic series are supplied unassembled as a flat pack (kit). Available in four different height units and equipped with a full glass door and cable entries with brushes on the top and bottom, they are ideal for sub-distribution or for setting up a small to medium-sized network. Inside, a pair of galvanised 19" profile rails with readable height units are installed, which are adjustable in depth. Each enclosure consists of a robust steel construction made of up to 1.5 mm thick sheet steel and is available electrostatically powder-coated in the standard colours grey (RAL 7035) and black (RAL 9005). The door hinge can be changed if required. Assembly is quick and easy thanks to the enclosed assembly instructions.
