- Plug & play, easy to install and simple to operate
- No software installation required
- Power supply included (5VDC, 2A)

ROLINE 4-PORT HDMI SPLITTER FOR IMAGE TRANSFERS UP TO 4K2K ULTRA HD AND IN 3D QUALITY

The ROLINE HDMI video splitter allows you to distribute picture and sound signals reliably to up to four HDMI indicators without any loss of quality. For example, video formats from PC or notebook can be distributed to four devices such as a monitor, TV or projector. An additional power supply is included in the delivery. The high-quality metal housing improves the shielding of the signals and provides an absolutely interference-free data transfer. The ROLINE HDMI Splitter is particularly suitable for professional use, e.g. For training purposes or in advertising, which is to be carried out in high resolution with up to 4k. No software is

required.

Technical specifications
